Department of Social and
Behavioral Sciences

Harvard T32 Educational Program in Cancer Prevention

The joint Harvard T.H. Chan School of Public Health – Dana–Farber/Harvard Cancer Center (DF/HCC) Educational Program in Cancer Prevention, in its 28th year, trains the next generation of scientists who will be skilled in transdisciplinary approaches to cancer prevention and control.

Research Mentorship & Other Opportunities

- Mentored research relationships with a primary and secondary mentor
- Monthly seminar series focused on career development and trainees' presentations
- Opportunity to take courses across Harvard University & funding for research and professional development
